Statement of main factors taken into account in making the above declaration

In making the above declaration, the main factors which have been taken into account by the Board of Directors are as follows:

In making this declaration, the Board has considered the Trust's financial position, operational performance, cash position, capital programme, going concern assessment, and the assurance received through Board, Committee, system and NHS England oversight arrangements.

The Board has also taken account of the enforcement undertakings accepted by the Trust in February 2026 and the arrangements in place to oversee delivery of the actions arising from them, including regular reporting and review through established governance and oversight processes.

In reaching its view, the Board has considered the controls and monitoring arrangements in place in relation to financial performance, forecast outturn, capital and cash, together with the assurance available through regular Executive, Committee, Board, system and NHS England oversight.

Having made appropriate enquiries, the Directors have a reasonable expectation that the Trust will have the required resources available to continue to provide Commissioner Requested Services for the relevant 12 month period.

Signed on behalf of the board of directors, and, in the case of Foundation Trusts, having regard to the views of the governors
